

Position: Drill Rig Operator and Helpers

CGC Geoservices, LLC provides geoscience related field and construction services including geotechnical and environmental drilling and sampling, geotechnical instrumentation, geothermal test well installation and thermal conductivity testing, sinkhole assessment and remediation, construction and/or maintenance of stormwater management facilities, and environmental remediation.

Position Description:

We are looking for both a full-time Drill Rig Operator and for Assistant Drill Rig Operators/Helpers based out of our Carlisle, PA and Wilmington, DE offices. Workload consists of conducting test borings and performing soil sampling and rock coring for geotechnical and environmental investigations in addition to installation of monitoring wells.

Job Requirements:

- operating a drill rig and other mechanical equipment
- routinely lifting and carrying equipment, tools and materials up to 75 pounds
- shoveling of soil cuttings
- standing throughout work day
- working outdoors year round
- performing routine maintenance of equipment
- Daily travel to job sites and periodic overnight travel will be required. A Company vehicle is provided for all work-related travel.
- Candidate must have an insurable driving record, a Commercial Driver's License (CDL) is a plus.
- 40-hr OSHA HazMat training or TWIC card a plus.
- Welding experience a plus
- Ability to operate other equipment (e.g., backhoe, skid steer, etc.) is also desired.

CGC Geoservices offers an excellent benefit package and is an Equal Opportunity Employer AA/M/F/V/H. Our policy is to recruit and employ qualified persons without regard to age, race, color, religion, sex, national origin, disability, or veteran status.

Qualified candidates should send resume to: info@cgcgeoservices.com or mail to:
